Dear Women on the Worldwide Women's Prayer Website:

I am in the process of putting together a priority packet to mail to you with a communication about prayers over the summer, with some prayer material, booklets, etc. It will be a few days before they are mailed because I ran out of one of the items and am in the process of trying to obtain more. Just as soon as they arrive, my packet to you will be on their way.

However, attached to this message to you is an article I received a few days ago and kept it so I could mail it on to you. You will see that it is a focus on the United States....the country dear to our hearts because most of us (not all) are connected to this country. May I ask that you read this article carefully, and seek our Father's mind as we pray. Even without this article, you know we have long lists of tremendous needs in this country, and the farther we move away from our Creator/Father, the greater our needs will become. Perhaps we can focus our prayers in this area as part of this world and when your packets arrive, there will be explanation with it. Blessings to you, dear co laborers.

If you are reading this message on our website and wish to connect with us, just send an email to lkewald@earthlink.net... We have women from everywhere praying with us.

Lois Ewald, NYC
